This magazine will definitely be cancelled and incorporated into COSTAGUANA, which you are all already receiving. It will retain its separate identity just long enough to allow us to merge without undue strain on deadlines. (I.e. the next build deadline will be quite short, and that will permit catch-ups.)

SACRAMENTO: H. Princetonia Garrigus today announced her resignation from the Sacramento Medical Center. She refused to disclose her future plans except to let coyly drop the purchase of a house "with inclined ramps instead of steps" in the Dulzura area.

JANUL: Election results from San Diego County this week saw William 'Bubbly Bill' Matselboba elected Mayor over Tom Hom by a margin of 40-1, and Boleslav S. Codger swept to a unanimous unopposed victory for County Sheriff. Codger, hearing of his victory, shrieked to an unidentified tall, heavy-set woman holding his wheel chair, "We did it!", and leapt from his chair to run joyfully across the room. He got about four feet.

FOR SIMULTANEOUS RELEASE AT 1200 HOURS IN SEVASTOPOL AND ST.PETERSBURG:
The Tsar of All the Russias, Alexei, and the Grand Duke of the Grand

Duchy of Sevastopol, Alexander Popogord, have agreed to a reunion of the territories controlled by each. The terms of the agreement call for the Grand Duchy of Sevastopol to remain domestically independent. The foreign policy will be set by Russia. The terms call for a "free union" in which the military forces will remain subject to Sevastopolitan control.

ST. PETERSBURG AND SEVASTOPOL: The General Staffs and Ministries of State of Russia and Grand Sevastopol today announced a state of war now exists between Russia and Germany. "Germany offers the direst threat to peace, and the best chance of gain, of any country in Europe today."

On a small gunboat somewhere on the Danube: "Steer upstream, idiot, Switzerland is upstream!"

From a castle somewhere in the Carpathians: "So you see, Count, there really couldn't be a 'Gentlemen's Agreement' in Europe as this plural simply doesn't exist here. Now as to that matter of the Vienna Blood Bank, His Imperial Majesty has authorized me to...."

From a peanut plantation on the Gold Coast: "...and see that the guest house is prepared; I have just received a telegram from Vienna, and...."

From a sardine trawler in Vladivostok: "Best start mucking out the hold now, boys, I've got a letter from St. Petersburg and it looks like we'll be having guests on our next run to Hawaii."

Worshipful

"Freedom to what?" said van Nassau.
"The Papists we'll never let pass so."
"Their only freedom is to agree
"With the good Whigs who elected me."

SAN DIEGO: "I have come in the interests of decent satire everywhere, impelled by the pleas of the entire intellectual community," said the new visitor.

Who has come to throw California into further chaos? Yes, gore fans, it is none other than MALAGIGI, resurrected from the limbo of lost Atlantis-in-Doerfield. Backing him came the five regiments of Irish volunteers under the able command of Henry, Lord Rye and Deal. For this venture commands the especial blessing of His Holiness Hadrian VII and the Knights of St. Gabriel, and the wizard bears a bull authorizing him to take all necessary measures against such enemies of the Anglican race as flourish here.

Malagigi fired the opening shot (so to speak) in his campaign by causing every pen and inkwell in San Diego County to dry up. In addition to the obvious consequences to what passes for journalism, this means that Hero Codger is totally unable to ticket the invaders, rendering the prize weapon of the secessionists useless. With the ensuing collapse of morale, the Volunteers were easily able to capture the strongpoints of the Jamulians, despite a feeble resistance led by General Herbert Marcuseless. In particular, Lord Rye and Deal felt called upon to look into the spiritual welfare of one G. Master, who thinks he is God. "I am interested in seeing how the heretics get out of this one!" cackled His Lordship.
